DETAILED ACTION

Response to Arguments

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 1-15, 17-22, and 24-26 are allowed.

Reasons for Allowance

The prior art of record issued to Schein and Herz fails to either alone or combine to teach or suggest a program similarity detecting device and its corresponding method for detecting the similarity of television programs comprising at least the step of "wherein the controller is programmed to compare a first set of attributes relating to at least one television program within the television program content to a second set of attributes relating to a second television program within the television program content to calculate a similarity score for the second television program based on a weighted combination of at least two attributes from the second set of attributes, and wherein the controller is programmed to cause the display to generate a first display indicating the second television program based on the similarity score" as claimed in claim 1, claim 12 (with an additional step of selecting a third set of television programs from the second set television programs based on the similarity scores), and claim 24. In addition, neither

Schein nor Herz teaches to calculate the similarity score for the second television program based on a weighted combination of at least two attributes from the second set of attributes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
